nacly greater than is that of those who city furnishes many instances on, and this is true whether the speculation was in railway stocks or in manufactures or groceries. In 1873-76 bands and dreds of millions of dollars were blotted of ponged out of existence or, in other words totally lost to those whose money had been in Out of these wrecks came the foundsfortunes of the majority of the class of greamong those the immensity of whose fortunes 110 to 180, the stock does not, as a whole, relebtedness thereon, and that such stock and he fortunes invested therein are subject to the classification of all appendiation.

But while the millions feet have been increase.

in number: while the great fertunes in ented and quadrupled in market value, and er and over again by the watering process, the substantial value of other propander cultivation, and the value of lands pre spened to cultivation in the last ten years represeuteres addition of \$1000 to the substantial weath of the country, and with its improvements and its additions of stock, doubles in sine every five yours. As a whole, all the idorably per sere in cash value. This growth as taken place at the south as well as at the the and this growth is of substantial prop rty whose raine does not fluctuate from day to day, nor is it subject to any depression by the failure of a stock broker, collapse of property whose value is abiding, the only ide of the immense fortunes confessed! speculative trade and engrations, it is possible

ed aristocher. This leag is not well ground d. The cutire wealth of Vanderbilt, Gould, Sage, Eield and fifty others of the great mil ant part of the farming lands of very insignaturant past very many manufacturers by the Juntan States; the area purchased even by the complained millions of all these persons would make but one amail farm compared to buy up the farms of the country the rices would advance so quink y that the power ing land would shrink amazingly. The dan even it in the future any attempt of that kind shall be made the intelligence of the people and of the state governments may cuded on to provide for the safety of the people of that day.

Time, hawdrer, provides for all difficulties arising from the accumulation of great wealth. Rich men die se well as poor once. Bich men have families of sons and daughters, and these sons and daughters have families, and all are subject to the intrinities, weaknesses and ca-prices of suman nature. The hundred mil-lions of soday, will find its ten, twenty, or when time shall bring the hour for its distriwhich there is no the property of the property of the fortune may grow, but all are subject to the same inevitable law of nature which itsule the term of the propert holders and builds up families to share in the inheriand builds up families to share in the inheri-tance and scatter among many the possessions of the few. On the whole, it is very likely that the people of the future will take care of themselves wisely and justly, and that the prescut need take up tropble test the next gene-ration will be unable to cope with the magnates who now flourith in Wall sinest, and who oc-casionally call in, their neighbors to look at the money they have exhaust. money they have gathered. The money will not go away, and there will be found plenty of persons of manage. Its diffit bulion when the time comes.

Congress proposes to appropriate \$5,000,000 nader the pretext that it is to be expended for the "improvement" of the "navigation" of the the "improvement" of the "navigation" of the Mississippl thyst. This is an appropriation of public nightey under a transdulent repre-sentation. It is marvelous how congress will disregard the most serious demands of commerce and devote the nation's money to ur worthy and pretentions projects. Not a doltar of the five million is to be expended for any purpose of navigation. During the recent freshets the water overflowed large districts on both sides of the lower Mississippi river. These districts had been feebly, protected against high water by banks of and and silt too-riv thrown up, and when the deep water same with force these mud embandments palturally gave way and the waters spread over the land. It was nothing but a natura, pro-cess which has been going on in all parts of the world during all time. This foots and the flowing all time. This foots and the flowing all time to fix the land for a time, subsided, and the water found the way to the sea, leaving upon the whole submerged country a denosit of incalculable value, which by thoroughly manuring has reaswed, the fer

THE TRIAL ENDED. Carrie Bradley Consicted of Man-

STARTLING ACCUSATION.

Daring the forescon the court-room was crowded by a larce studied or of interested speciators, and by the fitted the court concluded its anternetions, there was scarcely standing room to the half. Among those present we observed a number of ciertyme, and totter prominent etitizens, who evidently studied to general feet of interest in the proceedings.

At 12 o'clock the jury was still out, and the court took a recess until half past one o'clock.

Afterness Sension.

Afterness Session.

When the court convened after reveast is pry more brought in and amounted that they had aggreit upon a varilet.

The prisoner, Cartie Eradley, was directed to stand up, when the clerk read Sinte circuit court has adjourned notif we discolarly when the clerk read

"Have you agreed to this verilict, and are you now satisfied with 112"

Mr. Mason asked for time to consider the varidate and to decide about filing a motion for a new trial. The court granted until Wednesday next.

Mr. Mason saked if pending this matter the defendant could be admitted to best.

Mr. Caples interposed a decided objection ro such a curree after conviction, and the court surfained bits view of it.

The jury was stackarged, prisoner remainted to
